Research Interests

Computational fluid dynamics and its applications to stellar interiors and atmospheres.
Convection and its interactions with stably-stratified layers, rotation, and magnetism.

Education

- May 2020 **Ph.D.**, *University of Colorado – Boulder*, Astrophysical & Planetary Sciences.
Thesis title: “Fundamental Studies of Stratified Stellar Convection: Simulations and Theory”
- Dec. 2017 **M.S.**, *University of Colorado – Boulder*, Astrophysical & Planetary Sciences.
- May 2014 **B.S.**, *Whitworth University*, Physics.

Research Experience

- Sept 2020– **Postdoctoral Fellow**, *CIERA, Northwestern University*, Evanston, IL.
- Summer 2020 **Postdoctoral Researcher**, *LASP*, Boulder, CO.
- 2018–2020 **NASA NESSF Graduate Fellow**, *University of Colorado & LASP*, Boulder, CO.
- 2015–2018 **George Ellery Hale Graduate Fellow**, *NSO & LASP*, Boulder, CO.
- Summer 2015 **Graduate Research Assistant**, *LASP*, Boulder, CO.
- 2013 **NSF Summer Undergraduate Research Fellow**, *LIGO*, Hanford, WA.
- 2012 **DOE Summer Undergraduate Laboratory Intern**, *PNNL*, Richland, WA.

Grants & Fellowships Awarded

- 2020–Present **CIERA Postdoctoral Fellowship**, Evanston, IL.
Fellowship covers salary and provides \$15,000 yearly research stipend
- 2018–2020 **NASA Earth and Space Science Fellowship**, \$90,000, Boulder, CO.
Fundamental Studies Into the Solar Convective Conundrum: Do Giant Cells Exist?
Grant Number 80NSSC18K1199
- 2015–2018 **NSO George Ellery Hale Graduate Fellowship**, Boulder, CO.
Fellowship covers tuition, fees, and graduate research stipend for three full years.
Fellowship overview available online at <https://www.nso.edu/students/hale-fellowships/>

Invited Presentations

- 2022
- 20. Title TBD.
Astronomy Department colloquium. University of Wisconsin-Madison. Dec. 1.
 - 19. Mixing and wave generation at the convective boundary in massive stars.
Applied Mathematics Seminar. Durham University. Nov. 15.
 - 18. Convective boundary mixing and wave generation in the cores of massive stars.
Fluids & MHD Seminar. Leeds University. Nov. 10.
 - 17. Why are convective cores in massive stars bigger than expected?
Discussion Seminar. Isaac Newton Institute DYT2 programme. Nov. 7.
 - 16. The mystery of convective boundary mixing in the cores of massive stars.
TAPIR Seminar. Caltech. Oct. 28.
 - 15. Why are convective cores in stars bigger than expected?
Bildsten Group Meeting. KITP. Oct. 27.
 - 14. Chalk Talk: Convective Boundary Mixing in Massive Stars.
Compact Objects Research Group Seminar. CCA, Flatiron Institute. Oct. 13.
 - 13. Chalk Talk: Dedalus & Convective Boundary Mixing in Massive Stars.
Quataert Group Meeting. Princeton University. Oct. 12.
 - 12. Modern mysteries in stellar convection & a brief intro to fluid dynamics
CIERA REU Seminar. Northwestern University. July 28.
 - 11. A modern mystery in stellar convection & Dedalus is a flexible tool
Research Seminar. Newcastle University. July 12.
- 2021
- 10. Stellar convective penetration: parameterized theory and dynamical simulations
Virtual. Astro coffee. The Ohio State University. Oct. 27.
 - 9. Convective Penetration Probably Parameterizes Convective Overshoot
Virtual. Stellar Physics Group Presentation. CCA, Flatiron Institute. July 6.
 - 8. Convective Penetration Probably Parameterizes Convective Overshoot
Virtual. Seminar. "Kavli Summer Program in Astrophysics 2021: Fluid dynamics of the Sun and stars." July 5.
 - 7. Massive Star Variability
Virtual. Pre-recorded research intro lecture. "Kavli Summer Program in Astrophysics 2021: Fluid dynamics of the Sun and stars." June 8.
- 2020
- 6. Massive Star Variability and other fun with Dedalus
CIERA, Northwestern University. CIERA Virtual Happy Hour Short Talk. Nov. 20.
 - 5. Entropy Rain and the Solar Convective Conundrum: Dilution and Compression of Individual Convective Downflows
Nordita, Stockholm. "The Shifting Paradigm of Stellar Convection: From Mixing Length Concepts to Realistic Turbulence Modeling" workshop. Mar. 4.

- 2019 4. Entropy Rain and the Solar Convective Conundrum: Dilution and Compression of Individual Convective Downflows
Princeton University. Star Formation/ISM Rendezvous (SFIR) Seminar. Dec. 4.
- 3. Entropy Rain: Dilution and Compression of Thermals in Stratified Domains
University of Colorado – Boulder. Applied Math Geophysical and Astrophysical Fluid Dynamics (GAFD) Seminar. Oct. 1.
- 2018 2. Predicting the Rossby Number in Stratified, Compressible Convection
National Solar Observatory. Solar Focus Meeting. Dec. 7.
- 2017 1. Fundamental studies in stratified convection at low and high Mach Number
University of Colorado – Boulder. Applied Math Dynamics Seminar. Nov. 11.

--- Service

Referee Service

- Sci. Rep. 2022-, 1 total articles
- JFM 2021-, 1 total articles
- JAS 2020-, 2 total articles
- DIRAC 2020-, 1 total grants

Departmental Service

- 2022 Member of CIERA Climate Action Team
- 2022 Member of CIERA Justice, Equity, Diversity, and Inclusion (JEDI) committee
- 2021 Chair of CIERA K12 outreach taskforce
- 2020 Member of CIERA K12 outreach taskforce
- 2019-2020 Member of newly-formed admissions setup committee
- 2018-2019 Voting member of graduate admissions committee
Graduate student member of exams committee
- 2017-2018 Voting member of graduate admissions committee
- 2016-2017 Voting member of hiring committee for director of Fiske Planetarium
Graduate student member of search committee for NSO/CU faculty appointment
Graduate student member of exams committee
- 2015-2016 Graduate student member of search committee for three-year NSO/CU appointment

--- Awards & Honors

- 2019 **AAS 233 Chambliss Graduate Student Poster Contest**, *Honorable Mention.*
- 2016 **Comprehensive Exam II High Pass**, University of Colorado – Boulder.
Awarded for the defense of publication-quality research
- 2016 **Carl Hansen Graduate Fellowship**, \$1,000, University of Colorado – Boulder.
Awarded to a graduate student studying stellar interiors

- 2014 **President's Award for Outstanding Academic Achievement**, Whitworth Univ..
Awarded to students graduating with 4.0 GPAs

Teaching Experience and Professional Development

Courses & Labs Taught

- Summer 2017 **ASTR 2600: Introduction to Scientific Programming**, *Co-Instructor of Record*.
2014-2017 **ASTR 1010: Introductory Astronomy I (Lab)**, *Graduate Lab Instructor, 4 sections*.

Guest Lectures

- 2020 **PS361: Nuclear Physics**, *Whitworth University*, "Life and Death of Stars", Dec. 9.
2015 **ASTR 1010: Intro. Astro. I**, *Univ. of CO*, "Patterns in the Solar System", Mar. 10.

Teaching Assistantships

- 2015-2016 **ASTR 1010: Introductory Astronomy I**, *Lecture Teaching Assistant, 2 sections*.

Pedagogy Training

- 2022 **CIRTL Course: An Introduction to Evidence-Based Undergraduate STEM Teaching**, *Student*.
UCSC ISEE PDP 20-year conference, *Participant*.
2019 **UCSC ISEE Professional Development Program**, *Design Team Leader*.
Led team over a 100-hour program to design and teach a day-long inquiry activity on buoyancy.
2017 **UCSC ISEE Professional Development Program**, *Participant*.
Designed and taught a day-long inquiry activity on exoplanet transits.
2016-2017 **Lead Graduate Teacher**, *Astro. Department*, University of Colorado, Boulder, CO.
Led video consultations, ran pedagogy workshops, interfaced with Graduate Teacher Program.

Outreach

Long-term programs

- 2016-2019 **CU STARs**, *Student Coordinator*, University of Colorado, Boulder, CO.
CU STARs (CU Boulder Science, Technology, and Astronomy RecruitS) visits underserved schools across all of Colorado and gives high school students an opportunity to learn about and engage with space science. Graduate students serve as mentors to undergraduates, help design and improve outreach courses, and ensure outreach visits run smoothly.
2014-2017 **Sommers-Bausch Observatory Open House Series**, *Host & Telescope Operator*, University of Colorado, Boulder, CO.
Operated telescopes and answered questions from the public during free observing nights.

Visualization & Print Media

- 2021 **"Exoplanets" Pathfinder Pamphlet**, CIERA Pathfinder Series, Evanston, IL.

One-day events

- 2022 **Baxter Summer Scholars Astro. Day**, Northwestern University, Evanston, IL.
- 2021 **Baxter Summer Scholars Astro. Day**, Northwestern University, Evanston, IL.
- 2019 **CU Boulder MASP PEAC Science Day**, University of Colorado, Boulder, CO.
Sommers-Bausch Observatory Astro. Day, University of Colorado, Boulder, CO.
- 2018 **Sommers-Bausch Observatory Astro. Day**, University of Colorado, Boulder, CO.
- 2017 **CU Boulder MASP PEAC Science Day**, University of Colorado, Boulder, CO.
Sommers-Bausch Observatory Astro. Day, University of Colorado, Boulder, CO.

Contributed Presentations

- 2022 **APS Division of Fluid Dynamics**, *Talk*, Indianapolis, IN.
Convectively-driven waves in a massive star
- 2021 **APS Division of Fluid Dynamics**, *Talk*, Pheonix, AZ.
Convective penetration exists and we found it
KITP Probes of Transport in Stars conference, *Talk*, Santa Barbara, CA.
Stellar Convective Penetration: Context, Theory, and Simulations
- 2020 **APS Division of Fluid Dynamics**, *Virtual Talk*, Chicago, IL.
Convection in the Full Sphere: Predicting the Rossby Number of Mean & Fluctuating Flows
American Astronomical Society's 235th Meeting, *Dissertation Talk*, Honolulu, HI.
Numerical Explorations in Stellar Convection
- 2019 **APS Division of Fluid Dynamics**, *Talk*, Seattle, WA.
Dilution and Compression of Thermals in Stratified Domains
Compressible Convection Conference, *Talk*, Newcastle Upon Tyne, UK.
Entropy Rain: Dilution and Compression of Turbulent Thermals in Stratified Domains
Stellar Hydro Days V, *Poster*, Exeter, UK.
Accelerating the evolution of atmospheric structure in convective simulations
American Astronomical Society's 233rd Meeting, *Poster*, Seattle, WA.
Accelerating the evolution of simulated convective atmospheres
- 2018 **APS Division of Fluid Dynamics**, *Talk*, Atlanta, GA.
Predicting the Rossby number in stratified, compressible convection
- 2017 **APS Division of Fluid Dynamics**, *Talk*, Denver, CO.
The effects of Mach number and rotation on heat transport in stratified convection
Compressible Convection Conference, *Talk*, Lyon, Fr.
Convective heat transport in stratified atmospheres at low and high Mach number
- 2016 **APS Division of Fluid Dynamics**, *Talk*, Portland, OR.
Sustained shear flows in stratified convection
